Mern Stack & React Developer

Experience Summary

2.5+ years of software industry experience which is further divided into a blend of expertise in Mern Stack & React Development and secure architecture design, along with a track record of solving complex challenges.

My ability to lead projects to success and continuously adapt to new technologies makes me a valuable asset to innovative teams seeking efficient and impactful solutions.

Technical Skills:

Front-End technologies	React.js, Next.js, React Native, ES6 JavaScript, Html & Responsive Web Design, CSS, tailwind CSS, Redux, Bootstrap, Material UI, ANTDDesign, JQuery and AJAX, RTK Query, Formik
Database	Microsoft SQL server, MySql, MongoDB, Firebase, CouchDB
Programming Concept	OOPS, Data Structure, API, DOM, JSX, Cryptography, JWT, Cross Platform Compatibilities
Back-End Technologies	Node.js, Next.js, Rest Framework, .Net Core MVC, .Net Web Api, Express.js, Graphql
Version Control & Task Management	Jira, Azure Devops, Github, Git CLI, Gitbash, Tortoise git
Handy Development Skills	Debugging, Code Review, UI/UX Design Implementation, Performance Optimization, Security Practices, Continuous Integration/Continuous Deployment (CI/CD), Problem-Solving

Education Profile

Exam	University/Board	Year	Percentage
12th	GSEB	April - 2020	74.5%
BSC(IT)	GLS	April - 2023	86%

Project Experience

Pathshala React

Role: Project Leader & React Developer

Technologies: React, Axios, Material UI, Redux, JWT, REST API, Security Features, 3-Tier Architecture

Description: As the Project Leader for the Pathshala React initiative, I led the development of an educational platform, demonstrating expertise.

The Structures

Role: MERN Stack Developer

Technologies: TypeScript, React (Vite)

Description: In the "The Structures" project, as a React Developer, my contributions were multifaceted, involving both technical development and direct client interaction.

NGO Union (Full Stack Development)

Role: MERN Stack Developer, React Native

Technologies: MongoDB, Express.js, React, Node.js, Figma

Description: For the NGO Union project, as a Full Stack Developer on a React Native app, my key responsibilities and achievements.

ReachFI.AI - Finance App

Role: MERN Stack Developer

Technologies: TypeScript, Nextjs, React, Express, SQL, RTK Query, GraphQL, Formik, Drizzle ORM

Description: In the "ReachFI" project, as a Mern Stack Developer, my contributions Project Planning, requirement gathering, implementing features phase wises, involving both technical development & non-technical task with client interaction.

Looking Forward to

Eager to harness the power of the new Technologies for creating next-level web experiences, I'm on the lookout for opportunities to bring innovative ideas to life. With a track record of successful projects and a knack for teamwork and leadership, I'm ready to dive into new challenges and contribute to your team's success. Whether you're looking for a developer who can lead, innovate, or inspire, let's connect and discuss how we can make a difference together.
