Employment

Mern Stack/React Developer (2 Years)

Feb 2022 - Dec 2023

At Fortune Infosys

Project Experience At Fortune Infosys

Pathshala React (Project Leadership)

- Role: Project Leader & React Developer
- Technologies: React, Material UI, .Net Rest API
- Description: Led the development of a React-based educational platform, focusing on data fetching, state management, and the implementation of reusable components within a 3-tier architecture.

The Structures (React Developer)

- Role: React Developer
- Technologies: TypeScript, React (Vite)
- Description: Tasked with addressing complex problem statements for a US-based project, involving direct client communication for requirement gathering and bug resolution using TypeScript and React.

GIS (REST API Dev & Database Engineer)

- Role: REST API Developer & Database Engineer
- Technologies: C#, .Net, .Net Web Api, MSSQL, Web Forms
- Description: Spearheaded the development of RESTful APIs and managed database operations for an organizational site aimed at optimizing employee management processes.

Winmill (.NET Development)

- Role: .NET Developer
- Technologies: .Net, MSSQL, .Net Web Forms, c#
- Description: Focused on debugging and resolving specific issues for a union management site, leveraging my expertise in .NET technologies to meet client needs effectively.

NGO Union (Full Stack Development)

- Role: MERN Stack Developer
- Technologies: MongoDB, Express.js, React, Node.js, Figma
- Description: Managed full-stack development for an application facilitating NGO collaborations for events and services, from UI/UX design in Figma to REST API implementation and database management.

Qualities

- Project Management
- Problem Solving Attitude
- Communication Skills
- Technical Versatility
- Frontend and Backend Expertise
- Design to Deployment
- Collaborative Teamwork

Looking Forward to

Eager to harness the power of the new Technologies for creating next-level web experiences, I'm on the lookout for opportunities to bring innovative ideas to life. With a track record of successful projects and a knack for teamwork and leadership, I'm ready to dive into new challenges and contribute to your team's success. Whether you're looking for a developer who can lead, innovate, or inspire, let's connect and discuss how we can make a difference together.
